

NORDIC HYG

EFFECTIVE DRYING AGENT

Ammonia-binding drying agent

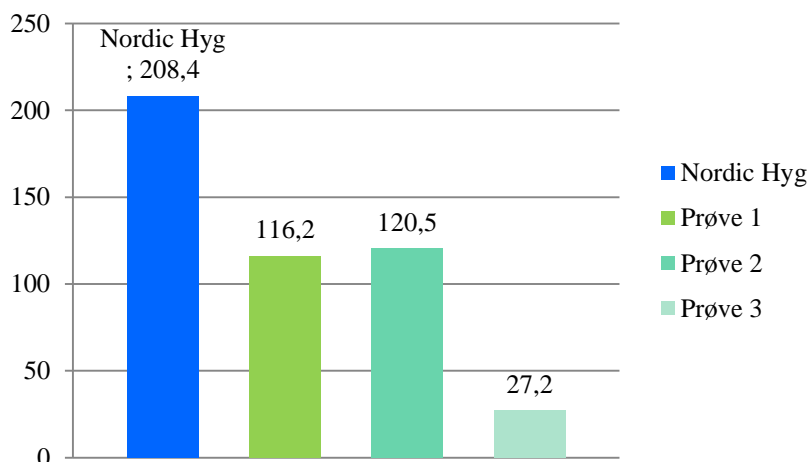

- ▶ **Eliminates breeding grounds for microorganisms, flies and insects. Efficiently binds ammonia**
- ▶ **Non-aggressive to environment and fixtures**
- ▶ **Contains many moisture-absorbing compounds**
- ▶ **Documented reduction in bacteria counts**

NORDIC Hyg kills bacteria. Eliminates colonies and prevents new growth.

NORDIC Hyg is suitable for all kinds of livestock.

NORDIC Hyg has documented effectiveness.

NORDIC Hyg absorbency has been proven in tests.

Technical data

Powder – pH approx. 8.5

Application

Initially, apply a handful (approx. 40 g) per m² two or three times a week in stalls and resting areas. Then apply Nordic Hyg as required.

Test results

PRODUCT/ SAMPLE	Weight before submersion	Weight after submersion	% absorbency
Nordic Hyg	5.105	15.742	208.4
Sample 1	5.201	11.245	116.2
Sample 2	5.002	11.028	120.5
Sample 3	5.127	6.521	27.2

Four samples were weighed out. Each sample weighed 5 g. The samples were submerged in water in a "tea bag". The samples remained submerged for 120 minutes before being taken from the water, suspended and allowed to drip for 15 minutes.

The samples were then re-weighed.
